Computer Architecture
Completed on SWAYAM (NPTEL Online Certification), [Jul-Oct 2024]
Instructor: Prof. Vignesh Muthuvijayan – IIT Madras
With a Consolidated Score of : 56%

Python Full Stack Developer - Virtual Internship
EduSkills Academy | April - June 2025

Successfully completed a 10-week virtual internship focused on Python Full Stack Development, gaining hands-on experience in both front-end and back-end technologies.

Projects

Automatic Gas Leakage Detection

Developed a system that detects gas leakage using sensors and immediately alerts users through a buzzer and/or message notification. The project aimed to enhance safety by enabling early detection and prevention of gas-related accidents.

Snapchat UI/UX Redesign Project

Designed an interactive prototype of Snapchat's user interface to improve user experience and visual consistency
